

SENSEX MARCHING TOWARDS 9000

The markets are in super bull phase and those short in the markets will be killed mercilessly, bulls are in solid grip and will take the markets to new highs, we predict it till 11,000 marks by 2006. If the person is not making money in this 5th and final bull wave i feel he is not fit to earn in the markets, and according to me if one enters in this so called free zone bull market he can be a millionaire soon, can have cars, properties soon.
